

WHAT IS IT?

A professional learning platform designed specifically for K-12 art teachers. PRO helps art teachers grow through in-depth video tutorials and premium resources. PRO also awards PD certificates to document learning and time invested.

A visual arts curriculum platform and modern digital textbook replacement filled with high-quality, standards-aligned curriculum materials. FLEX lets any art teacher curate their own custom classes and units to reflect their unique students

WHO IS IT FOR?

Art teachers use PRO Learning to learn new skills and become better educators for their K-12 students. The materials inside of PRO are teacher facing.

K-12 students learn about visual arts through the curriculum materials their art teachers curate for them through FLEX Curriculum. The materials inside of FLEX are student facing.

WHAT'S INSIDE?

Inside each Learning Pack, art teachers find in-depth video tutorials, useful classroom resources, and supplemental links, all crafted and curated by expert art educators.

Inside of each thematic Collection, art teachers find premium curriculum materials, including standards-aligned lesson plans, student-facing resources, videos, and assessments.

WHAT DO I TAKE AWAY?

After completing a Learning Pack and learning new skills and teaching strategies, art teachers have an opportunity to earn an official certificate. Each certificate documents earned learning and PD hours.

After finding curriculum materials they like, art teachers can save and organize them into custom classes and units. The materials can be downloaded, printed, and shared with students as desired.

When paired together as a comprehensive K-12 visual arts curriculum solution, PRO becomes a handy “teacher’s edition” to FLEX. PRO Learning Packs dive deep into rich video tutorials, giving art teachers the essential skills they need to be successful with specific lessons and resources inside FLEX Curriculum.
