

How to Use Google for Translation

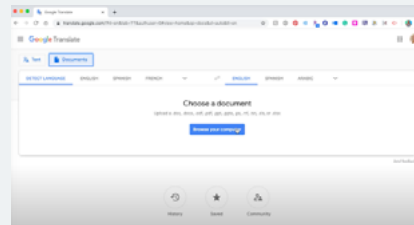

1

Begin by downloading the file needed from FLEX.
Then, go to <https://translate.google.com/>.

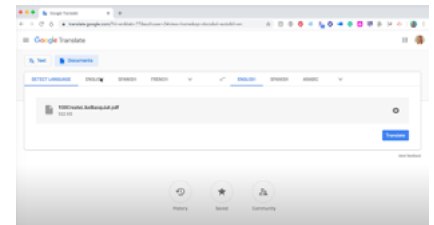

2

Click on **DOCUMENTS** and use the browse feature to select the downloaded FLEX file.

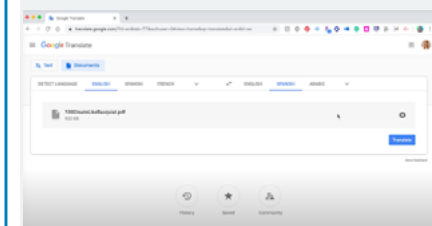

3

On the left-hand portion of the screen, set the language to English.

4

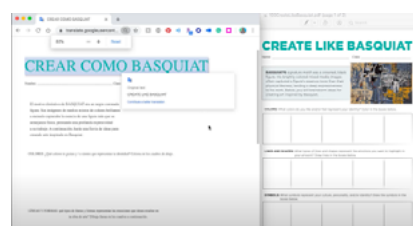

On the right-hand portion of the screen, set the language to the translation needed and click the blue **TRANSLATE** button.

5

A translated version of the PDF will appear.

Note: This translation may not be perfect, and it does remove much of the formatting from the original document.
